Railway Shares Generally Neglected

and Prices Sag-United States Trust Company Elects Officers-Bureau of Corporations Will Investigate Steel, Lumber, Tobacco, and Others. Those who sought things interesting by

attending the meeting of the Washington Stock Exchange yesterday, suffered a disappointment. There was "nothing doing," at least out of the ordinary, even the jokes of the brokers being of the dull variety. The total transactions of the day amounted to 590 shares of stock and \$500 worth of bonds, Of the stock sold, 400 shares were Lanston, which held at \$12 a share and a fraction above. Greene-Cananea reached

\$10 a share, having gone steadily down nearly two points in the last two weeks. The railway shares received considerable bidding, but none of the stock came out, Capital Traction, which sold as high as 133 last Tuesday, and has sold at 131 repeatedly in quotation lots, was bid down to 130, with no gales. Washington Railway and Electric common, which has remained pegged at 35 for a number of days, lost a half point on the bidding. though one enthusiastic broker declared he was ready to take it at the offered price in quantity five times as large as anybody else would take Capital Traction at the offered price. Washington Rallway and Electric preferred sold at 73, and the rest of the trading was insignificant, J. William Henry of Lewis, Johnson & Co., was present yesterday, in the absence of his partners, and held down the job satisfactorily to all concerned.

Judge Elbert H. Gary, of the United States Steel Corporation, is quoted as saying that the time is past for trusts to ignore the people. He says the old policy, said to have emanated from Commodore Vandervilt, will no longer do Conciliation, he declares, is the only safe course to pursue, and he intimates that the sooner the executive heads of the Capt. HAROLD L. JACKSON, retired, from ourse to pursue, and he intimates that great corporations find it out the better it will be for the companies they repre-
